des **sciences de la vie**

Université de Strasbourg

Master Immunologie et Inflammation

External speakers seminars 2019

November 18 (afternoon) and 19 (morning) 2019, Collège doctoral de
l'Université de Strasbourg, 46 Boulevard de la Victoire

Invited by Jean-Luc Imler

Cécile Arrieumerlou, INSERM U1016, Institut Cochin, Paris

ADP-heptose, a new pathogen-associated molecular pattern

Lucie Etienne, Centre International de Recherche en Infectiologie, Lyon

Titre : **Evolutionary and Functional Analyses to Identify Novel Virus-Host Interfaces**

Invited by Chris Mueller

Elisabetta Raggiai, Novartis, Basel, Switzerland

Learning from self and not self human memory BCR repertoire

Sascha Yousefi, Group Wolfgang Schamel, Department Molecular Immunology, Faculty of
Biology, University of Freiburg, Germany

**The Opto-ligand-TCR system - deciphering mechanisms of T cell biology by the flick of a light
switch**

Dubey Lalit Kumar, Lausanne, Switzerland

**Visualizing Mesenteric Lymph Node Stromal Niches Emergence and Remodelling During Type-
2 Immunity**

Invited by Susan Chan

Frederic Rieux-Laucat, Laboratory of immunogenetics of pediatric autoimmune diseases,
Institut Imagine, Université de Paris, INSERM UMR 1163

Monogenic predisposition to early-onset autoimmunity in Humans

Isabelle Andre, Human Lymphohematopoiesis Laboratory

Institut Imagine, Université de Paris, INSERM UMR 1163

T-cell differentiation: from fundamental discoveries to clinical applications
