

Master Immunologie et Inflammation

Immunology symposium

November, 18th and 19th, 2019, Salle de séminaire IBMC

18/11/19

14h : Lucie Etienne, Centre International de Recherche en Infectiologie, Lyon
Title: **Evolutionary and Functional Analyses to Identify Novel Virus-Host Interfaces**

15h: Elisabetta Raggiai, Novartis, Basel
Title : **Learning from self and not self human memory BCR repertoire**

16h-16h30: coffee break

16h30: Isabelle André, Institut Imagine, Université de Paris, INSERM UMR 1163
Title : **T-cell differentiation: from fundamental discoveries to clinical applications**

17h30: Dubey Lalit Kumar, Lausanne University
Title: **Visualizing Mesenteric Lymph Node Stromal Niches Emergence and Remodelling During Type-2 Immunity**

18h30: Cocktail

19/11/19

8h30: Cécile Arrieumerlou, INSERM U1016, Institut Cochin
Title : **ADP-heptose, a new pathogen-associated molecular pattern**

9h30: Frederic Rieux-Laucat, Institut Imagine, Université de Paris, INSERM UMR 1163.
Title : **Monogenic predisposition to early-onset autoimmunity in Humans**

10h30-11h: coffee break

11h: Sascha Yousefi, University of Freiburg

**Title : The Opto-ligand-TCR system - deciphering mechanisms of T cell biology
by the flick of a light switch**

12h: End
