

Faculté des **sciences de la vie**

Université de Strasbourg

Symposium

November, 22th and 23th - Salle de séminaire CRBS - CAMPUS MÉDECINE

Master Immunologie et Inflammation

22/11/21

14h00 : Jun Abe, Department of Oncology, Microbiology and Immunology, University of Fribourg
Title : Regulation of effector CD8+ T cell responses by immune microenvironment

15h00 : Anne Dejean, Toulouse Institute for Infectious and Inflammatory Diseases
Title : Role of the transcriptional regulator Eomes in CD4+ T cells during central nervous system autoimmunity

16h-16h30 : coffee break

16h30 : Thierry Fest, INSERM U1236, B. Devil team, University Hospital of Rennes
Title : Deciphering the metamorphosis of B cells into antibody secreting cells on the context on immune response.

17h30 : Engin Vrana, Sparta medical, Strasbourg.
Title : IMMUNOMODULATION AND ITS ROLE IN THE PERSONALISATION OF IMPLANTABLE MEDICAL DEVICES

18h30 : Cocktail with the M2 and PhD student

23/11/21

8h30 : Veronique Orian-Rousseau, institute of Biological and Chemical Systems – Functional Molecular Systems (IBCS-FMS), Karlsruhe Institute of Technology
Title : Implications of CD44-dependent signaling in myeloid cells on pancreatic cancer and acute myeloid leukaemia

9h30 : Gennaro De Libero, Department of Biomedicine, University of Basel
Title : MR1T cells, a T cell population with a flair for tumor recognition

10h30-11h: coffee break

11h00 : Baubak Bajoghli, University Hospital Tubingen, department of internal Medicine II
Title : Regulation of alpha/beta and gamma/delta T cell lineage choice by intrathymic cell localization and environmental signals
